Best Wishes for a Prosperous 2016

Every day at KGP Companies we work hard to put our customers first. It's not aspirational, but rather who we are, woven into the fabric of our company's culture.

In the spirit of the holiday season, we'd like to pause and say 'Thank You'. We're grateful for your business and your confidence in our company.

We look forward with continuing to support you and your business in 2016

ADTRAN - Accelerating Delivery of Premium Broadband

ACCELERATING THE DELIVERY OF PREMIUM BROADBAND

Gigabit broadband transforms communities, rebuilds urban centers, revitalizes schools, stimulates economic growth and delivers innovative residential and business services. ADTRAN's rapidly deployable broadband solutions leverage existing network infrastructure thus speeding time to market and lowering the total cost per install.

Connector integrity is crucial to the reliability of network performance. While dirt and grease are the main cause of loss and reflectance, it can also cause connector damage. By properly cleaning, the life of connectors is extended and replacement cost is minimized. Maximize network performance using AFL's fiber optic cleaning solutions such as:

- Push-type Cleaners
- Reel-type Cleaners
- Fluids and Wipes
- Cleaning Sticks, Tips and Swabs
- Cleaning Kits

AFL also provides a host of test equipment including OTDRs, loss test kits, inspection, fiber identifiers, fault locators and more. At AFL, we connect™.

More Flexible FTTX Networks

Because you can't risk a network outage, you run your business like every connection counts. That's why you need a reliable partner, a partner with end-to-end network knowledge, and global experience. CommScope is that partner. Our mission: work with our customers to build faster, smarter, more efficient networks. We do that by increasing installation speeds, simplifying network complexity, and lowering operating costs. Our product is connectivity. We build networks that take data to the user — the office, the home, the fan in the 22nd row. Where ever that data is going to be used. Our fiber optic networks are designed for the needs of today, and ready for the demands of tomorrow

Fiber is the Pipeline - We're experts at designing and building fiber networks that take advantage of fiber optic's tremendous bandwidth, reliability, energy-efficiency, and cost-savings. We believe that fiber is the pipeline that will deliver tomorrow's applications.

Design for Tomorrow - Fiber to the home (FTTH) networks can deliver 1 Gbps and more to homes, MDUs, and businesses. FTTX architectures, which are a mix of fiber and copper technologies, also deliver broadband speeds.

redefine density

Beautifully Dense, Stunningly Scalable

The Centrix™ Platform, Corning's next-generation switch center solution, combines extreme flexibility and simplicity with the ultimate in density. With superior jumper management and an innovative fiber routing system, the Centrix Platform is a cross-functional solution that meets the requirements of multiple application spaces.

PREMIER - HDMI Cables

PREMIER

PREMIER's High Speed HDMI cable provides a reliable, high quality connection between audio and video components such as Blu-ray players, cable and satellite set-top boxes, DVD players, A/V receivers, gaming consoles, and much more.

Featuring a durable molded PVC housing, gold plated contacts and corrosion resistant gold plated connectors, and triple shielding, this HDMI cable consistently delivers excellent picture and sound quality.

Features and Benefits:

- Supports high definition 1080p, Adobe RGB Color, Deep Color, 3D, 4K, sYCC601 Color, and Adobe YCC601 to accurately display natural, vivid colors
- Supports Dolby Digital, DTS, Dolby True HD, DTS-HD Master Audio, Audio Return Channel and Lip Sync to deliver the highest quality and duplication of sound
- Built-In Ethernet Channel for Compatible Devices
- Corrosion Resistant Gold Plated Connectors
- Durable construction for years of reliable trouble-free service
- Robust triple shielding for added EMI/RFI protection

Ritar, established in 2002, produces a full line of Valve Regulated Lead Acid (VRLA) Absorbed Glass Mat (AGM) batteries ranging from 0.7 Amp Hour [AH] to 180 AH. Applications include Data Centers, Telecom wireline/wireless/Fiber-to-the-Home, Uninterruptible Power Supplies, security and alternative energy including solar and wind. Ritar's ISO 9001 certified advance manufacturing practices and processes ensure high quality and reliable products time after time.

Fiber to the Home – RT Series

RT Series is the general purpose battery with 5 years design life for float service. It meets IEC and JIS standards. With updated AGM valve regulated technology and high purity raw materials, the RT series battery has reliable standby service life. It is suitable for Residential ONT BBU / UPS / EPS, medical equipment, emergency lighting and security systems applications.

- 1 Year Warranty
- Capacity range: 0.7Ah – 9Ah
- Voltage Class: 6V/12V
- Low self-discharge rate
- Good high rate discharge performance
- High sealed reaction efficiency: > 99%
- Wide operation temperature range: -20°C/60°C -4°F/140°F

Telecom – Front Terminal (FT) Series

Ritar's FT Series batteries are specifically designed for telecom use with 10+ years design life in float service. By adopting a new AGM separator and centralized venting system, the battery can be installed in any position while maintaining high reliability. The dimensions of the FT Series are designed to fit 19" and 23" relay rack or cabinet installations. Networking Engineering Building Standards (NEBS) APPROVED.

- 3 Year Warranty
- Capacity range: 100Ah – 180Ah
- Voltage Class: 12V
- Long design life (25°C/77°F): 10+ Years
- Low self-discharge rate: < 3%/month
- Best long duration (4+ hours) discharge capacity performance
- High sealed reaction efficiency: > 99%
- Wide operation temperature range: -20°C/60°C -4°F/140°F

UPS – Data Centers Top Terminal High Rate (HR) Series

Used by some of the largest data center providers in the world, Ritar's HR Series is especially designed for heavy load discharge applications with 5 to 10 years design life in float Service. The HR series offers 30% more power output than standard range. Suitable for UPS/EPS where high current loads are required.

- 3 Year Warranty »Capacity range: 55Ah – 150Ah
- Voltage Class: 6V/12V
- Long design life (25°C/77°F): 5 Years (<28Ah) 10 years (>28Ah)
- Low self-discharge rate: < 3%/month
- Best high rate discharge (15 minutes or less) current performance with minimum voltage drop
- High sealed reaction efficiency: > 99
- Wide operation temperature range: -20°C/60°C -4°F/140°F

**FAST SPEEDS
POWERFUL PERFORMANCE
FLEXIBLE DEPLOYMENT**

*EXPERIENCE SUPERIOR HOME NETWORKING
UNPARALLELED VALUE IN FTTH & DSL APPLICATIONS*

AC1600 VDSL2 COMBO GATEWAY | VMG3925

- VDSL2/ADSL2+ dual mode with vectoring up to profile 17a for optimized performance
- Flexible deployment with multiple WAN options
- Easy to use graphic user interface (GUI) for setup and configuration
- Superior QoS and traffic management for IPTV
- High power Wi-Fi amplifier for superior coverage and performance
- Dual band, AC1600 Wi-Fi for blazing-fast speeds
- Remote management with the industry latest in TR-069

All Gigabit WAN and LAN port configuration for FTTH and home networking
