

It's Better With Viavi.

Get Cash — When You Trade Up!

**Certify both copper and fiber networks
quickly, completely, and correctly.**

Certifying and maintaining structured cabling infrastructure is more important than ever. With zero margin for error in enterprise networks, legacy test manufacturers are making it difficult and expensive with unnecessary upgrades and cumbersome workflows.

Protect yourself and your business with a better test and measurement portfolio from Viavi Solutions. Buy a qualifying handheld tester, and get cash when you trade in a CAT5 or higher cable certifier or a Validator/Validator PRO.
